

# Badger Youth Safety Class

## **BADGER STEAM & GAS SHOW GROUNDS SATURDAY, JUNE 4**

The Badger Steam and Gas Engine Club will offer a safety day for those youth ages 12-18 who wish to operate any equipment on the club grounds during the 2022 show. The safety class will be held in-person on Saturday, June 4 from 9:00 a.m. to Noon in the Women's Building at the showgrounds: S3347 Sand Rd, Baraboo, WI 53913. There will be no charge for this class. Pre-registration is appreciated for planning purposes, but not required. **Please call John Gerike at 608-415-2401 to register.**

This class is being offered due to the UW-Extension 4-H Tractor Safety Class that is not being offered due to the Covid situation.

This is safety training only, not a class to teach how to drive. It is assumed that participants already know how to drive and have some experience driving. If you are under age 18 the Badger steam and Gas Engine Club "Show Rules and Regulations" require tractor operators to have passed and have a certificate for completion of a Tractor Safety course. If you don't have one – this is the class for you! After you successfully complete the training, you will be issued a certificate which will allow you to operate equipment on the grounds. Please contact John Gerike at 608-415-2401 with any questions.
